

Serial No. 10/717,468

Attorney Docket No. 11-205

AMENDMENTS TO THE SPECIFICATION

Please replace the paragraph beginning on page 13, line 36 of the specification with the following amended paragraph:

The target recognizing processing is configured to extract, through image processing such as pattern recognition, regions on CCD images, the regions showing a high possibility of ~~existence of the targets~~that the possibility that the targets exist is high. Various ways of recognizing such regions have been known, and any kind of way can be used in the present embodiment. Since how to recognize targets has no direct relation with the present invention, the recognition way is omitted from being detailed.
